# THE FASTEST, MOST POWERFUL AND **PORTABLE DIODE LASER FOR HAIR REMOVAL**

New launch. Incorporates the latest technology developed in the Germany and Spain, combining **PORTABILITY** and **POWER**.

New VCSEL system

The cooling unit is completely integrated in the device, so its total weight is a mere 9 kg, and it can reach a temperature of  $-9^{\circ}\text{C}$  at the tip.

A high-power diode laser you can trust, with the MILESMAN guarantee. 2000 W and Up to 30 J/cm<sup>2</sup>

Especially recommended for service delivery, rentals, and itinerant application of hair removal services. Can be used on all types of skin, including tanned or black skin..

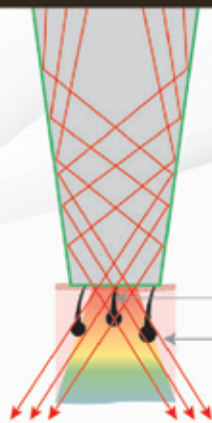

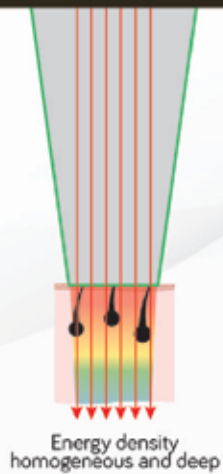

**M** milesman compact

WITH VCSEL system

OTHER LASERS

WITHOUT VCSEL system

## Technical Specifications:

- <b>WAVE LENGTH</b>	810 nm
- <b>REPETITION RATE</b>	1-2-3-4-5-6-7-8 Hz and 10 Hz Mode
- <b>SPOT SIZE</b>	10 X 10 mm
- <b>MAXIMUM FLUENCE</b>	30 J/cm <sup>2</sup> at 30 ms
- <b>PULSE LENGTH</b>	5 to 400 ms
- <b>PEEK POWER</b>	2000 W
- <b>LASER DIMENSIONS (WxDxH)</b>	350 mm X 420mm X 230 mm
- <b>LASER WEIGHT</b>	9 kg.
- <b>CHILLER DIMENSIONS</b>	Not Necessary

 **milesman** is a company doing business more than 30 countries which researches and manufactures advanced technology medical laser equipment.

It is divided into departments specializing in Laser Physics, Dermatology, Advanced Optics, Thermodynamics and Laser Chemistry, among others. The production and R&D processes are performed at different plants in Europe and the United States. The company makes use of its own technology developed in conjunction with prestigious universities and international research centers, which gives it a solid base and capacity for sustained growth in the coming years.

## Why MILESMAN PREMIUM is the gold standard laser for HAIR REMOVAL?

- Diode laser technology endorsed by the international scientific community\*
- Ultra-cold protection system that protects the skin, leading to less patient discomfort
- Portable device
- Quick with three pulses per second (enabling coverage of large areas in a short time)
- DUAL and fast System: short pulse Mode and 10 Hz multi-pulse mode for tanned skin
- Long life diodes
- No consumables
- Robust device with low maintenance costs
- Technical service available in less than 24 hours and guarantee of a back-up laser (in some countries)
- Treats all skin types: white, tanned and dark skin.
- Easy to use
- With the guarantee of international quality certifications FDA, CE 0120, ISO 13485, ISO 9001 and ANVISA
